Founder / Owner Artist Statement

"I am moved by the actions, history, and events that shape mankind; anything that elevates the human spirit. It can be the simplest of things or the most overwhelming. Often it is the adventure and beauty nature has to offer, and the connection I have with animals. This energy translates into my work, where I express it in a positive way through art. My goal is to inspire the same passion, love, and hope in others."
— Lisa J. Levasseur
